

Gül H. Zerze, PhD

CPRIT Scholar in Cancer Research

Assistant Professor

University of Houston

Unveiling Structural Disorder in Protein A: An Unexpected Twist in Antigen-Antibody Interactions

Gül received her Bachelor's (2010) and Master's (2013) degrees in Chemical Engineering from Middle East Technical University (Turkey) as a fellow of the Scientific and Technological Research Council of Turkey. She received her Ph.D. in 2017, also in Chemical and Biomolecular Engineering, at Lehigh University. She continued her work as a postdoctoral researcher at Princeton University, where she was named a Writing in Science and Engineering Postdoctoral Fellow and a Rising Star of Chemical Engineering (MIT). As a student, she was the recipient of awards including the TSCR's Peter Salamon Award, the Biophysical Society's Research Achievement Award and Education Committee Award, Chevron Corporation's Recognizing Excellence Award, and the AIChE COMSEF Award. In 2021, she received a junior faculty recruitment award from the Cancer Prevention and Research Institute of Texas to join the University of Houston, Department of Chemical and Biomolecular Engineering in 2022.
